MEDITATION ON TWIN HEARTS is an advanced meditation technique aimed at achieving illumination or universal consciousness. It is also an instrument of world and community service that eventually harmonizes the earth by blessing it with loving-kindness, peace, joy and goodwill. Meditation on Twin Hearts is a noble tool that raises one’s vibrations toward higher states of awareness and expanded levels of consciousness.

Grand Master Choa Kok Sui, an internationally known author, teacher and lecturer and the modern founder of Pranic Healing and Arhatic Yoga introduced Meditation on Twin Hearts to the public for the first time in the 1980's. Grand Master Choa Kok Sui, a spiritual teacher and spiritual inspiration to millions of people worldwide introduced this meditation as a powerful tool for spiritual development. Presently being practiced globally by tens of thousands of people of different religions and backgrounds, the first brilliant light known as heaven ki in Taosk yoga, or the pillar of light in ancient Jewish Kabbalah traditions. To the Indian yogis and saints, they call this pillar of light, antakarana or spiritual bridge of light. The Christians refer to it as the descent of the holy spirit, symbolized by a pillar of light with a descending white dove. The white dove represents the coming down of divine energy. The descent of the divine energy causes the temporary expansion of the practitioner’s major chakras and inner aura. When meditation is practiced on a regular basis, the expansion may become permanent.

When people practice the Meditation on Twin Hearts daily or regularly, their major chakras and auras will increase in size, making their energy bodies more dynamic and stronger. With bigger chakras and inner aura, they can become more powerful healers and can heal most minor ailments very quickly and almost instantaneously. Having a powerful and dynamic energy body not only enhances one’s healing powers but also increases one’s effectiveness and productivity at work. People who have magnetic personalities or great charisma usually have bigger chakras and inner auras than ordinary people, and they tend to have a stronger influence over most people. Furthermore, a person who regularly meditates becomes more intuitive and intelligent, when faced with a problem, he will have the increased ability to see directly through the problem and find the right or proper solutions. Those who intend to practice Meditation on Twin Hearts regularly, however, should practice self-purifications or character building through daily reflection so their positive characteristics will be magnified.

The Meditation on Twin Hearts is a form of world service. By blessing the earth with loving-kindness, you fill the world with positive spiritual energies. The blessings can be directed to organizations, specific towns, cities, countries, or group of nations. When practiced by a large number of people, the meditation miraculously heals the earth, thereby making it more harmonious and peaceful.

"Mediation on Twin Hearts is one of the most powerful tools for spiritual development. It is a true gift from the Great Ones."

- Grand Master Choa Kok Sui

GRAND MASTER CHOA KOK SUI

Founder of Modern Pranic Healing & Arhatic Yoga

The experience of bliss, power, love and oneness that come to those who practice Meditation on Twin Hearts ultimately awakens other feelings - deep gratitude and profound awe for the spiritual teacher who introduced this mighty meditation to the public. That teacher is Grand Master Choa Kok Sui. Not a guru in the style of an isolated holy man on a mountaintop, but an accessible modern lecturer who brings the higher mysteries directly to students allowing them the priceless gift of contact with a physical teacher.
Master Choa began studying esoteric sciences when just a teenager growing up in the Philippines. Following a degree in chemical engineering, success as a private businessman, and the raising of a family, Master Choa began dedicating himself full time to spreading the Great Work. Fourteen books, a dozen meditation audio recordings, and countless seminars and workshops taught in dozens of countries later, Master Choa now stands as an embodiment and example of what happens when one serves. With charisma, that comes from constant contact with the divine, love and patience for his "chelas," and an astonishing physical stamina that permits him to travel most weeks of the year, Master Choa has taught tens of thousands of students around the globe the principles of Pranic Healing and the advanced meditation techniques of Arhatic Yoga. Pranic Healing, an ancient form of energy medicine, that Master Choa re-discovered and developed further, is a way every person can take a proactive role in his or her own physical health and well-being. Arhatic Yoga - of which Meditation on Twin Hearts is a cornerstone - is a synthesis of various arcane techniques to accelerate spiritual growth. Within Arhatic Yoga there is an emphasis not only on meditation but on "character building," which teaches students how to fashion a life well-lived.

Much of the spiritual technology Master Choa teaches has heretofore remained hidden and reserved for just a select few. But Master Choa believes the world is ready for the teachings and he is committed to help the Higher Beings usher in a new age. - Jennifer Sabih

STEPS IN MEDITATION ON TWIN HEARTS

1) Cleansing Physical Exercise. Cleanse the etheric body by doing physical exercise for about five to ten minutes. Physical exercises have to be done to minimize possible panicic congestion since this meditation generates a lot of subtle energies in the etheric body.

2) Invocation for Divine Blessing.

The Invocation is important for one’s protection and guidance. Without Divine Blessings, the practice of any advanced meditation can be dangerous.

The following invocation can be used:

To the Supreme God, I humbly invoke for divine guidance, divine love and illumination, divine oneness, divine bliss, divine help, and divine protection. With thanks and in full faith.

3) Activating The Heart Chakra.

The heart chakra is activated by blessing the entire earth with loving-kindness using the Prayer of St. Francis of Assisi. Visualize people smiling and filled with joy, faith, hope and peace. Visualize enemies reconciling, embracing and forgiving each other. One should also personally feel joy, happiness and peace filling your entire being while blessing the earth.

4) Activating The Crown Chakra.

The crown chakra is activated by using the following blessing:

From the center of the heart of God,
Let the entire earth be blessed with loving-kindness.
Let the entire earth be blessed with great joy and happiness.
From the center of the heart of God,
Let the entire earth be blessed with understanding, harmony, and divine peace.
Let the entire earth be blessed with goodwill and the will to do good.

Allow yourself to be a channel of divine loving-kindness, joy, happiness, understanding and peace and share these with the whole earth. Visualize people smiling, their hearts filled with joy and happiness. Visualize people or nations that are on the verge of fighting or are fighting reconciling and living in harmony with each other. Visualize people putting down their arms, shaking hands and embracing each other. Imagine people not filled with good intentions, not only talking about doing something good, but also actually carrying out these good intentions. This is the meaning of the "will to do good."

5) Blessing with the Heart And Crown Chakras.

Concentrate simultaneously on the crown chakra and the heart chakra, and bless the entire earth. This will align both chakras, thereby making the blessing more potent. You may use the following blessing:

From the center of the heart of God,
Let the entire earth, every person, every being be blessed with divine love and kindness
Let the entire earth, every person, and every being be blessed
With divine sweetness, divine joy, with warmthness, caringness and tenderness.
From the center of the heart of God,
Let the entire earth, every person, and every being be blessed
With inner healing, inner beauty, divine bliss and, divine oneness.

Imagine the small earth in front of you. Visualize a golden light from your hands going down to the earth, filling the whole earth with light and love. Feel the divine love and kindness and share these with the whole earth, every person and every being. Feel the sweet, loving feeling and share it with the whole earth. Feel the divine bliss and divine oneness, and share these with every person and every being.

6) Achieving Illumination. Meditation On The Light, On The Mantra OM And The Interval Between The Two OMs

Gently imagine a brilliant white light or golden light on the crown. Look at it gently and lovingly. Feel the quality of the energy emitted by the light. Feel the inner peace, stillness and bliss emanating from the light. Be aware of the light, the inner stillness and the bliss. Gently and silently chant the mantra OM or Amen. Continue meditating. Relax and let go.

7) Releasing Excess Energy.

After meditation, it is important to release all excess energy by blessing the earth until you feel the body has normalized. Bless specific persons, your family and friends. Next, gently be aware of the base of the spine. Project your consciousness down into the earth and imagine light descending into the earth three meters or 10 feet deep.

8) Thanks Giving

After the end of the meditation, always give thanks to the Divine Providence and to your spiritual guides for the divine blessing.

9) Further Releasing Of Excess Energy Through More Physical Exercises.

HOW COME MY BODY IS MOVING DURING THE MEDITATION?

During meditation, one may experience unusual movements such as shaking, rocking or circular motions of the physical body for a limited period of time. This is quite normal as the etheric channels are being cleansed.
